## Summary

---

Frontend Developer with hands-on experience building responsive and dynamic web applications using modern JavaScript frameworks such as React.js, Next.js, and Vue.js. Skilled in crafting clean UI/UX using Tailwind CSS, Bootstrap, and Material UI. Strong backend integration knowledge with Node.js, Express, and RESTful APIs. Passionate about performance optimization, clean code, and staying updated with the latest web technologies. Collaborative team player with a freelance background and a growing portfolio of real-world projects.

## Work Experience

---

### Front-End Developer, Freelance / Personal Projects

Jan 2024 – Present

- Built and deployed multiple modern web applications including e-commerce platforms, portfolio websites, and business dashboards using **React**, **Next.js**, and **TypeScript**.
- Designed responsive UIs with tools like **Tailwind CSS**, **Bootstrap**, and implemented smooth animations using **Framer Motion**.
- Integrated third-party APIs for features like user authentication, product management, and payment gateways such as **Stripe** and **PayPal**.
- Developed admin dashboards using **MUI**, **React Table**, and **Chart.js** to visualize live order and customer data.
- Implemented dark/light mode theming with **React Context API**.
- Built dynamic features like photo galleries, blog sections, contact forms with **email.js**, and RESTful API integrations.
- Deployed applications using **Vercel**, configured custom domains, and implemented basic **SEO optimization**.
- Ensured high performance and accessibility with **Lighthouse** audits and responsive testing tools.
- Followed best practices in version control using **Git** and **GitHub**, and used tools like **Trello** and **GitHub Projects** for task tracking.
- Delivered high-quality code under tight deadlines, with complete documentation and client handoff.

### React Developer, Parnian Group

Jun 2019 – Dec 2023

- Designed and developed various pages of an online store (e.g., product listing, cart, product details) using reusable React components.
- Created reusable UI components such as buttons, product cards, and navigation menus.
- Used React Router to manage routing in a Single Page Application (SPA) environment.
- Integrated RESTful APIs provided by the back-end team to display products, handle shopping carts, and manage orders.
- Managed application state using Context API and, when needed, Redux.
- Fixed UI bugs and improved user experience (UX) through testing on multiple

devices and browsers.

- Optimized app performance with techniques like lazy loading and efficient data handling.
- Used Git and GitHub for version control, including branching, pull requests, and team collaboration.

#### **Web Developer, The Aquatics House**

Jul 2017 – May 2019

- Designed, developed, and maintained the e-commerce platform to support a wide range of aquarium-related products and services.
- Implemented responsive UI/UX components to enhance user experience across desktop and mobile devices.
- Integrated secure payment gateways and order management systems to streamline customer transactions.
- Collaborated with marketing and content teams to build features that improved user engagement and awareness of aquatic animal care.
- Optimized website performance, load times, and SEO to improve visibility and accessibility.
- Developed backend services for inventory tracking, customer support, and shipping logistics.
- Ensured website scalability and reliability by utilizing best practices in software development and system architecture.
- Conducted regular testing and debugging to maintain a high-quality user experience.
- Provided ongoing technical support and updates based on customer and business feedback.

## **Technical Skills**

---

### **Front-End Development**

- HTML5, CSS3, Bootstrap 5, Tailwind CSS
- JavaScript (ES6), TypeScript, DOM Manipulation
- React.js (Redux, Router, Testing), Vite, jQuery

### **Back-End Development**

- Node.js, Express.js, EJS Templating
- RESTful APIs, PostgreSQL, SQL

### **Tools & Version Control**

- Git, GitHub, Visual Studio Code, PowerShell
- Deployment: Vercel, Netlify

## **Education**

---

**Master of Science in Computer Engineering**, Islamic Azad University

Sept. 2014 – Sept. 2016

**Bachelor of Science in Computer Engineering**, Islamic Azad University

Sept. 2005 – Sept. 2009
